

Perfecting Your Payment Delivery for Ultimate Payments Zen

A suite of payments solutions that integrate seamlessly with your existing systems for a more cost-effective, timely, and smoother payment flow.

Integrating our payments products into your platforms and processes will make life easier for payers and payees alike. Speed up your payment cycles, effectively and efficiently deliver funds to individuals or other businesses, and deliver a better financial experience for everyone involved.

Faster Disbursements

- Begin processing payments immediately thanks to our fast, simple integration.
- Distribute funds directly to a bank account or on a trackable, reloadable card.

Secure Payments

- The elimination of paper-heavy processes removes the risk of lost or stolen checks.
- Paycards can be issued, loaded, canceled, or re-issued at the touch of a button.

Simpler Processes

- Embedding our payments solutions into your existing systems streamlines processes while lowering costs.
- Whether one-time use or reloadable physical or digital cards, everything is handled swiftly and digitally.
